The 18 cities and county government are SANDAG serving as the forum for regional decision-making. SANDAG builds consensus; plans, engineers, and builds public transit; makes strategic plans; obtains and allocates resources; and provides information on a broad range of topics pertinent to the region's quality of life.

ARRESTS 2007: LAW ENFORCEMENT RESPONSE TO CRIME IN THE SAN DIEGO REGION

INTRODUCTION

The Criminal Justice Research Division of the San Diego Association of Governments (SANDAG) functions as the Clearinghouse for criminal justice information for the region. On an annual basis, the Division prepares a report on local criminal justice agencies' response to crime in the region, as measured by arrest statistics. Such information provides an added dimension to our bi-annual reports on crime data for understanding the nature of crime and an additional measure that can be used in justice system planning.

This CJ Bulletin includes regional arrest rates per 1,000 adult and juvenile population, as well as numbers of arrests by offense type. In addition, 42 supplemental tables, which include statistics for individual jurisdictions, are presented.

Some points to remember when interpreting these numbers include:

- Similar to how the FBI counts reported crimes, the offense or charge attributed to an arrest may reflect only the most serious out of a number of violations included in the case.
- Arrests are documented by the location at which the arrest occurred and cannot be assumed to have any relationship to the location of the crime incident or the residence of the alleged offender.
- Arrest and crime rates and numbers should not be compared to one another. One reason is that the two events may occur in two entirely different periods of time, with an arrest made months or even years after the related crime has been reported.

FAST FACTS

- On average, around 260 adults and almost 47 juveniles were arrested each day in 2007 in the San Diego region.
- The 2007 adult arrest rate of 40.9 per 1,000 population represented the third consecutive decrease and was five percent lower than in 2003.
- The 2007 juvenile arrest rate of 49.7 represented a two percent decrease from the prior year, continuing a general downward trend since 1998.
- Even though there were fewer juvenile arrests overall in 2007, compared to 2006, the juvenile arrest rate for felonies and status offenses actually increased over the one-year time period.
- San Diego County had the third highest adult and second highest juvenile arrest rates compared to the other four most populated California counties in 2007. However, San Diego County also had a greater one-year decline in its arrest rate overall, compared to those four counties and the State overall.
- Around one in every two adult arrests in 2007 was for an alcohol- or other drug-related offense.
- The most common arrest type in 2007 was misdemeanor driving under the influence (DUI), with 16,253 adults arrested over the 12-month period (equating to more than 44 per day).

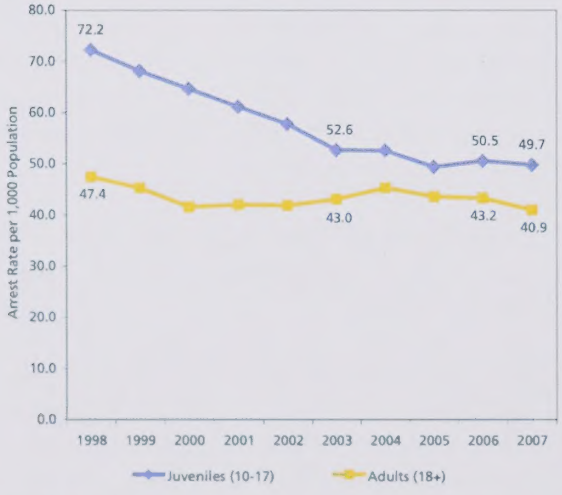
ARREST RATES

Trends

In 2007, there were 40.9 adults arrested per 1,000 population. As Figure 1 shows, this rate was a ten-year low and represented a five percent decrease from 2006. Across the jurisdictions, the adult arrest rate varied from 12.6 to 58.9 in 2007, with 4 jurisdictions reporting a higher rate and 15 a lower rate, compared to 2006 (Table 7).

The arrest rate for juveniles, which has traditionally been higher than for adults, has shown a somewhat different pattern over time (Figure 1). Rather than fluctuating, the juvenile rate decreased consistently through 2005, with a slight one-year increase in 2006. This increase was followed by another decrease of two percent (to 49.7 per 1,000 population in 2007, the second lowest rate in the ten-year period). Across the jurisdictions, the juvenile arrest rate varied from 14.9 to 78.8 in 2007, with half (8) of the agencies reporting one-year increases and the other half (8) one-year decreases; the other three had no change or the number of arrests was too small to compare (Table 10).

Figure 1
ADULT ARREST RATE AT TEN-YEAR LOW IN 2007



SOURCES: California Department of Justice; SANDAG

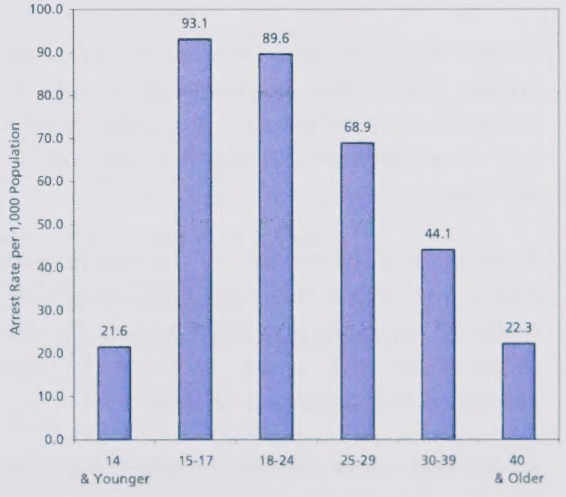
Felonies and Misdemeanors

For adults, both the felony and misdemeanor arrest rates decreased over the past year, with the decrease for felonies (-9%) greater than for misdemeanors (-3%) (Tables 8 and 9). For juveniles, while the misdemeanor arrest rate declined (-7%), the felony arrest rate actually increased (5%) (Tables 11 and 12). As described later in this bulletin, this increase in juvenile arrests for felonies was related to an increase in the number of violent offenses (as opposed to property, alcohol- and other drug-related, weapons, or other offenses) (Tables 35 to 39).

Arrestee Age and Race

As Figure 2 shows, the arrest rate by age group peaks for 15 to 17 year olds (93.1 per 1,000), and then declines, from 89.6 for those between the ages of 18 to 24 to 22.3 for those 40 years of age and older. Over the past five years, there were decreases in arrest rates for each of the age groups, with the exception of those between the ages of 25 and 29 (who had an increase of 17%) (Table 2).

Figure 2
ARREST RATES LOWER FOR OLDER AGE GROUPS



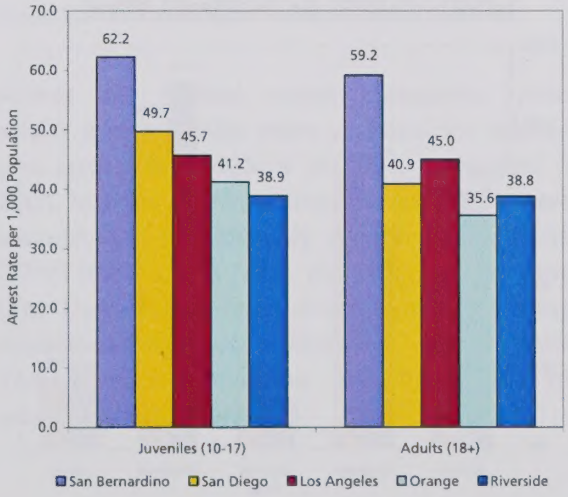
SOURCES: California Department of Justice; SANDAG

Arrest rates also varied by ethnic group for both adults and juveniles, with individuals of other ethnicities having the lowest rate (17.6 and 22.8), while Blacks had the highest rate (127.7 and 116.3). Over the past five years, the arrest rate has declined for each of the groups to varying degrees (from 2% for Black adults to 23% for juveniles of other ethnicities), with one exception (an increase of 5% for Hispanic juveniles) (Table 3).

SAN DIEGO COMPARED TO OTHER CALIFORNIA COUNTIES

In 2007, San Diego County had both an adult (40.9) and juvenile (49.7) arrest rate that was lower than the State's (47.3 and 50.9, respectively) (Table 6). In addition, as Figure 3 shows, San Diego County had the second highest juvenile arrest rate and the third highest adult arrest rate, compared to the other four most populated counties in the State (San Bernardino, Los Angeles, Orange, and Riverside). Over the past year, San Diego experienced a greater overall decline in its arrest rate (-5%), compared to these other counties (-2% to 1%).

Figure 3
SAN DIEGO COUNTY HAD SECOND HIGHEST JUVENILE ARREST RATE AND THIRD HIGHEST ADULT ARREST RATE IN 2007

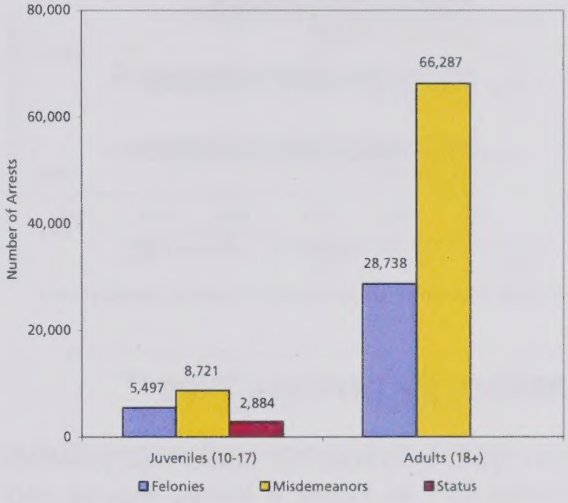


SOURCES: California Department of Justice; SANDAG

NUMBER OF ADULT AND JUVENILE ARRESTS

Even though juveniles have historically had a higher arrest rate per 1,000 population compared to adults, it is important to note that many more adults are actually arrested. In 2007, there were a total of 95,025 adult arrests and 17,102 juvenile arrests, with the majority of these at the misdemeanor level (Figure 4). In other words, on average, there were around 260 adults and almost 47 juveniles arrested every day in 2007 in the San Diego region by local law enforcement agencies (not shown).

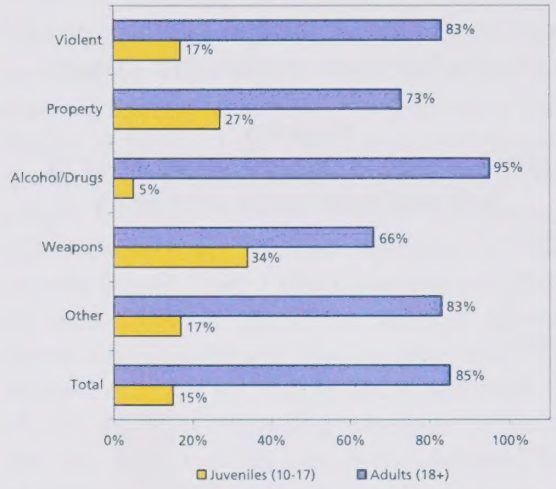
Figure 4
MOST ARRESTS IN 2007 WERE ADULTS FOR MISDEMEANOR OFFENSES



SOURCES: California Department of Justice; SANDAG

As Figure 5 shows, while 15 percent of all individuals arrested in 2007 were juveniles, there was variation by crime type, with juveniles more likely to be arrested for weapons offenses (34%) and property offenses (27%), and less likely to be arrested for alcohol- and other drug-related offenses (5%).

Figure 5
JUVENILES REPRESENT HIGHER PROPORTION OF ARRESTS FOR WEAPONS OFFENSES



SOURCES: California Department of Justice; SANDAG

ARRESTS BY OFFENSE TYPE

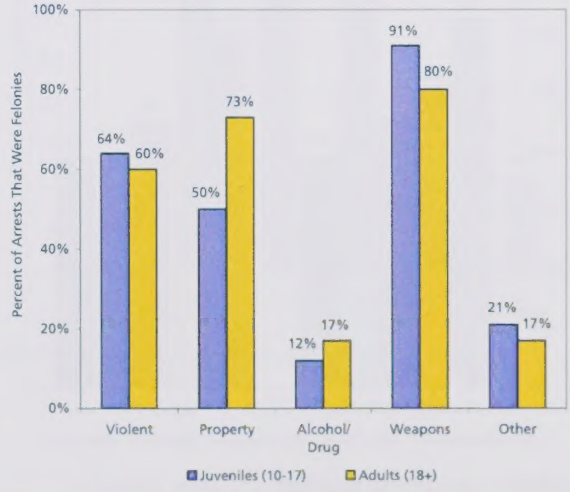
What types of crimes are adults and juveniles arrested for? As Figure 6 shows, around half (51%) of adult arrests were for alcohol- or other drug-related violations. In comparison, the distribution across crime type varied more for juveniles, with the most common being "other" offenses[1] (26%) and property offenses (22%).

Figure 6
ADULTS MORE LIKELY TO BE ARRESTED FOR ALCOHOL- AND OTHER DRUG-RELATED OFFENSES

SOURCES: California Department of Justice; SANDAG

There was also variation across the arrest categories in terms of what percent represented felony- versus misdemeanor-level offenses. As Figure 7 shows, while four-fifths or more of juvenile and adult arrests for weapons offenses were at the felony level (91% and 80%, respectively), a much smaller percent were felonies in the alcohol/drug (12% and 17%) and "other" offense categories (21% and 17%).

Figure 7
PERCENT OF ARRESTS AT THE FELONY LEVEL VARIES BY OFFENSE TYPE



SOURCES: California Department of Justice; SANDAG

[1] A detailed description of "other" offenses is included on page 9 of this CJ Bulletin.

Violent Offenses

The violent offense arrest category includes four felony-level offenses (homicide, rape, robbery, and aggravated assault) and two misdemeanor-level offenses (manslaughter and assault/battery). There were 13,660 adult and 2,842 juvenile arrests for violent offenses in 2007 (Figure 8). For adults, there were fewer violent arrests in 2007 than any of the other comparison years (-2% over past five years) (Table 21). In contrast, while there were fewer juvenile violent arrests (-4%) in 2007 than 2003 (Table 34), this most recent year represents the second consecutive increase.

Figure 8
ARRESTS FOR VIOLENT OFFENSES DOWN FOR ADULTS, UP FOR JUVENILES

SOURCES: California Department of Justice; SANDAG

Across the violent arrest categories, more adults and juveniles were arrested for robbery and aggravated assault in 2007, compared to 2006, but the one-year increase for felony-level assaults was considerably greater for juveniles (57%) than adults (7%). However, at the same time these felony-level arrests were increasing, misdemeanor assault/battery was down 32 percent for juveniles and 9 percent for adults (Tables 22 and 35).

Property Offenses

Property offenses include burglary, larceny, and motor vehicle theft at the felony level, and petty theft and burglary at the misdemeanor level. In 2007, there were 9,887 adults arrested for a property offense, which represented a six percent drop from 2006 and was the third consecutive decrease (Figure 9 and Table 21). For juveniles, there was less variation over the past five years, with a one percent increase from the prior year (Table 34).

Figure 9
ARRESTS OF ADULTS FOR PROPERTY OFFENSES SHOW DOWNWARD TREND

SOURCES: California Department of Justice; SANDAG

Across the property arrest categories, there were fewer arrests over the last year at the felony level for both adults and juveniles (-10%), but an increase in misdemeanor-level offenses for both groups (8% and 15%, respectively) (Tables 23 and 36).

Alcohol- and Other Drug-Related Offenses

In 2007, there were 48,317 adult and 2,650 juvenile arrests for alcohol- and other drug-related offenses (Figure 10). For adults, there has been no consistent trend over the five years, although there was a one-year decrease of seven percent (Table 21). For juveniles, the number of arrests decreased for three consecutive years, but increased seven percent from 2006 to 2007 (Table 34).

Figure 10
ARRESTS FOR ALCOHOL- AND OTHER DRUG-RELATED OFFENSES FLUCTUATED PAST FIVE YEARS

SOURCES: California Department of Justice; SANDAG

Fewer adults and juveniles were arrested for felony-level alcohol/drug offenses in 2007, compared to 2006 (-20% and -12%, respectively), but a greater number of juveniles were arrested for misdemeanor-level offenses (10%) over the same one-year period. This increase was related to more arrests for drunkenness, liquor law violations, and marijuana offenses (Tables 24 and 37).

Weapons Violations

There were 1,306 adult arrests and 672 juvenile arrests for weapons violations in 2007 (Figure 11). For adults, 2007 represented the first decrease in the number of arrests, after three consecutive increases. For juveniles, the decrease from 2006 to 2007 represented the third consecutive, after an increase from 2003 to 2004 (Tables 21 and 34).

While the decreases for felony and misdemeanor weapons offenses were consistent for adults (15%), there was variation for juveniles, with a slight increase for felonies (3%), but a considerable decrease for misdemeanors (-38%) (Tables 25 and 38).

Figure 11
ARRESTS FOR WEAPONS OFFENSES UP OVER PAST FIVE YEARS FOR ADULTS

SOURCES: California Department of Justice; SANDAG

Other Offenses

There were 21,855 adult arrests and 4,374 juvenile arrests for "other" offenses in 2007 (Figure 12). At the felony level, "other" charges include sex-related offenses, forgery, and arson, as well as other felonies (such as kidnapping). At the misdemeanor level, offense types include other theft-related charges, sex-related changes and prostitution, disturbing the peace, vandalism/graffiti, hit-and-run, selected traffic offenses, violations of city/county ordinances, failure to appear in court offenses, and other charges such as contributing to the delinquency of a minor.

Over the past five years, there has been fluctuation in the number of adult arrests for "other" offenses, with a one percent increase since 2006 (Figure 12 and Table 21). For juveniles, there was also no clear trend between 2003 and 2007, with the 4,374 arrests in 2007 representing a 14 percent decrease from 2006 (Table 34).

Figure 12
NUMBER OF ARRESTS FOR OTHER OFFENSES INCREASED FOR ADULTS IN PAST YEAR

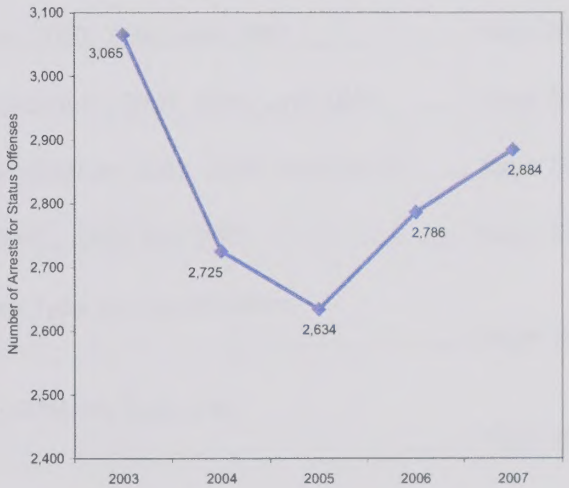
SOURCES: California Department of Justice; SANDAG

For adults, the most dramatic one-year changes were the 37 percent increase in a category of offenses described as "other theft/checks/access cards" (which are most likely related, at least in part, to an increase in identity theft) and the 44 percent increase in failures to appear. For juveniles, the greatest one-year change was a 47 percent decrease for city/county ordinances (Table 26).

Status Offenses

There were 2,884 status offense arrests in 2007 (Figure 13). Over the past five years, there has been a great deal of fluctuation in the number of juveniles arrested for status offenses by type. Specifically, while arrests for truancy and curfew violations represented 14 percent and 35 percent of all status offense arrests in 2003, these percentages had increased to 23 percent and 53 percent, respectively, in 2007 (Table 40).

Figure 13
NUMBER OF STATUS OFFENSE ARRESTS INCREASED SINCE LAST YEAR



SOURCES: California Department of Justice; SANDAG

SUMMARY

The current CJ Bulletin describes what types of arrests were made in the San Diego region in 2007 by local law enforcement agencies of both adults and juveniles. The arrest rate for both adults and juveniles was lower in 2007 than ten years prior, but the pattern of change varied, with juvenile arrest rates showing a more consistent decline. While the juvenile arrest rate has traditionally been higher than the adult rate, the difference has declined over time and it is important to note that in terms of numbers, many more adults are actually arrested each year (85% of all arrests). About one in every two adult arrests is for an alcohol- or drug-related offense, while juveniles show greater variation in the offense type leading to their justice system contact. Some notable changes over the past year in arrest rates included more juveniles being arrested for violent felonies, as well as misdemeanor alcohol/drug-related and status offenses, and more adults arrested for misdemeanor offenses which could be tied to identity theft.
